

SOLICITATION ID: USN-NAVSEA-2026-JP009

CLASSIFICATION: UNCLASSIFIED // FOR OFFICIAL USE ONLY

ISSUING AGENCY: United States Department of the Navy (NAVSEA Command)

PROJECT TITLE: High-Precision Titanium Propulsion Shafts and Marine Forgings

TARGET FABRICATION REGION: Shizuoka Prefecture, Japan

1. BACKGROUND & SCOPE

The U.S. Navy Sea Systems Command (NAVSEA) is evaluating strategic precision engineering installations within the Indo-Pacific theater to fulfill emergency fabrication demands for littoral combat vessels and next-generation destroyer propulsion hulls. Due to severe domestic industrial drydock bottlenecks in the United States, specialized precision forging houses in Japan have been requested to submit competing contract bids.

All manufacturing must comply with strict naval acoustics, structural integrity, and anti-cavitation tolerances. Subcontracting to regional Tier-2 machine shops within Shizuoka is authorized under strict security oversight.

2. REGISTERED PRIMARY CONTRACT BIDDERS (TIER-1 RESPONDENTS)

The following industrial entities have formally completed and submitted engineering bid books, corporate registries, and initial memoranda of intent before the established closing window:

[BIDDER RESPONDENT #1]

- Corporate Legal Name: Shizuoka Heavy Industries Co., Ltd. (静岡重工業株式会社)
- Head Offices: Suruga-ku, Shizuoka City, Shizuoka Prefecture, Japan
- Lead Signatory/Executive Contact: Kenji Tanaka, Managing Director of Marine Systems Division
- Proposed Unit Pricing Schedule: Schedule Alpha (\$420,000 USD per fabricated assembly)

- Primary Manufacturing Asset Location: Yaizu Hull Casting Facility

[BIDDER RESPONDENT #2]

- Corporate Legal Name: Fuji Precision Forging Corp. (富士精密鍛造株式会社)
- Head Offices: Fuji City, Shizuoka Prefecture, Japan
- Lead Signatory/Executive Contact: Takashi Yamamoto, Chief Executive Officer
- Proposed Unit Pricing Schedule: Schedule Bravo (\$395,000 USD per fabricated assembly)
- Primary Manufacturing Asset Location: Gotemba Metallurgy Complex

[BIDDER RESPONDENT #3]

- Corporate Legal Name: Tokai Maritime Alloys Ltd. (東海海上合金株式会社)
- Head Offices: Shimizu-ku, Shizuoka City, Shizuoka Prefecture, Japan
- Lead Signatory/Executive Contact: Minoru Sato, Director of Strategic Defense Sales
- Proposed Unit Pricing Schedule: Schedule Charlie (\$450,000 USD per fabricated assembly)
- Primary Manufacturing Asset Location: Shimizu Port Industrial Zone

3. ADMINISTRATIVE REQUIREMENT METRICS

All three candidate entities listed above claim to satisfy the baseline requirements outlined in the solicitation guidelines, including cross-border transport capabilities via the Port of Shimizu and automated metallurgy validation metrics.
